## BANGKOK PATANA SCHOOL ANNUAL FUND

Helping to fulfill the potential of every child

Since its inception in 2004, the Annual Fund has supported a variety of projects across the school. The common thread amongst these projects is that they typically lead to school-wide action.

- The Annual Fund helped provide solar panels for the Secondary Science Centre. In August 2018, the school completed a solar installation of more than 2,000 panels producing 702 watts.
- Four years ago, the Annual Fund provided two 3D printers for Secondary Design+Technology, putting the faculty at the leading edge of technology. Now we have eight 3D printers, which are well integrated into the curriculum.
- In 2012, the Annual Fund bought a boat and funded improvements to the Outdoor Classroom. Since then the use of this space has grown exponentially, now boasting an open classroom and teaching pavillion that is used by Year groups across the school.
- In 2016, the Annual Fund was focused on environmental projects. This gave us the large Recycling Centre at the front of school and led to the recycling units at the snack bars, highlighting the importance of recycling to the whole community.
- Last year, the Annual Fund went towards projects that we anticipate will also be springboards. These projects are: The establishment of a Well-being Centre, robotics equipment to continue developing STEM in school and further enhancements to the Outdoor Classroom.

In 2018/19, the Annual Fund will support Global Citizenship. Your support makes exciting things happen at Bangkok Patana School.
